

Dear New Patients and Families:

Welcome to Bluestone Physician Services!

We know choosing a physician is an important decision and we are honored you have chosen Bluestone to manage your healthcare needs. We are different from traditional clinics; please allow us to introduce ourselves.

Bluestone Physician Services is an independent primary care clinic created to uniquely serve those in Assisted Living Communities and Group Homes through on-site visits. We offer a team approach to health care which recognizes the importance of patient independence for as long as possible. Bluestone believes that a close partnership with community staff, families and other care team members is the best way to deliver customized quality health care.

In the spirit of partnership, this packet is intended to give you information about Bluestone's services and to provide us with the information we need to begin to manage your health care needs. Please read the information carefully and return the required forms to our Intake Coordinator via fax or by mail. If you have any questions about how to fill out any of our forms, please do not hesitate to call us at the appropriate number listed below.

Thank you,

A handwritten signature in black ink that reads "T. Stivland MD".

Dr. Todd Stivland, CEO
