

## Bluestone Bridge™ Communication Tool For Better Patient Care

The Bluestone Bridge is designed for collaboration between Bluestone provider teams, community staff, service partners, and the patient's family. The Bluestone Bridge is a 24/7 online communication tool that provides unprecedented access to patient information for care teams and family members.

### Benefits for care teams:

- ❖ 24/7 access to Bluestone Provider Team (MD, NP, PA-C)
- ❖ Secure, online tool that allows remote access for off-site staff
- ❖ Request and receive general orders and medication orders online
- ❖ Chronic disease monitoring such as real-time INR Management
- ❖ Integration of community staff to play key role in communication

### Benefits for families:

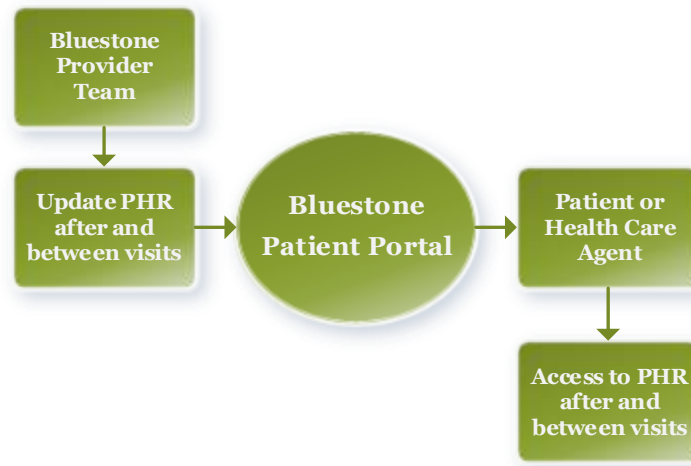

- ❖ 24/7 access to Bluestone Provider Team and Community Care Teams
- ❖ Routine update on family member's health status following provider visit
- ❖ Secure, online tool, which allows multiple family members to collaborate in patient's care, no matter the distance

*\*Appropriate legal consent must be provided to gain access to patient information using the Bluestone Bridge.*

**Bluestone Bridge Help Line: 855-794-9476**

## Bluestone Patient Portal For Access to Personal Health Record

The Bluestone Patient Portal is a separate platform, which provides an overview of your Personal Health Record (PHR). This allows access to personal health information like visit summaries and test results. Access to the Patient Portal is available 24/7 to the patient OR the patient's designated health care agent. This platform is accessible via desktop computer, tablet, or mobile phone by using the application Healow.

### Benefits for care teams:

- ❖ Personal Health Record consolidates all medical-related information in one place for review
- ❖ Care teams may order and review medications, labs, and diagnostic imaging

### Benefits for patient or designated health care agent:

- ❖ View Personal Health Record (PHR) including:
  - Visit Summary: Current Problem/Diagnosis List, Medication List, Allergies, Vitals, Procedure Information, Specialty Referral Details
  - Lab and Diagnostic Imaging Results
  - Health History (Surgical, Hospitalization, Social, Medical, Immunization)
  - Personalized Care Plan
  - Immunization History
- ❖ View past and current billing statements, includes the ability to provide ePayment
- ❖ Receive appointment confirmation and reminders
- ❖ Receive educational materials regarding diagnosis, treatment and medications
- ❖ Secure messaging to provider team (***Please note, Bluestone Bridge is preferred for communication***)
- ❖ View Health Maintenance Records to ensure patient is up to date on recommended screenings and immunizations
